

THE OPPORTUNITY

One Eyed Jack turned to the experts at Infinite to design a system that takes 36 video displays, 8 video feeds and six audio zones and makes the whole system easy enough for anybody to operate with Control4.

Just Add Power, one of the world's best video distribution systems was on the top of our list to implement with this amazing new location. Known for its award winning product line and eye catching picture quality, we knew the client would fall in love with this product.

One Eyed Jack is the Pub & Grill to be at! They value unforgettable service, great food and the perfect atmosphere. With over 250 Seats and 4K TV's placed perfectly for all sporting events, they are the perfect place to turn when you are looking to relax, with many more locations to come!

One Eyed Jack

Peterborough

According to Suthan, owner of the One Eyed Jack franchise, the Control4-controlled A/V system designed and installed by Infinite has given them a leg up on the intense local competition and helped the restaurant shine as a premiere destination in the city.

The Control 4 system that controls the restaurant is the centerpiece of an AV installation that includes a video wall, multiple wall-mounted 65" Samsung TVs, 20 24" booth TVs, Sunbrite 55" TVs in the outdoor patio area, and the main attraction — a 2 x 3 videowall that comprises 6 49" Samsung displays in the main bar. All the displays and audio zones can play content from 8 TV boxes.

IMPLEMENTATION

- **Audio**
 - JBL Pendant Speakers and Subwoofer
 - JBL Control Series Speakers
 - Bose Outdoor Speaker
 - Powered by Crown & QSC Amplifiers
 - 6 Audio Zones with independent level control
